**For Immediate Release:**

**Today's Date:** May 28, 2006  
**Prepared By:** Sgt. Keith Faulk  
**Release #:** 2006-153  
**Incident Date:** 05/28/06  
**Incident Location:** 17301 NE U.S. 301, Waldo, Florida  
Café Risqué Adult Super Center

**Use of a Weapon of Mass Destruction:**

A weapon of mass destruction as described by the Florida State Statutes was discovered at the Café Risqué Adult Super Center in Waldo. The rudimentary but functional device was placed on top of a window air conditioning unit. The apparent intent was to deliver some sort of unknown chemical into the building by use of water. The delivery system utilized two gallon jugs, where the substance mixed with water from an introductory hose and was then released into the building through a separate hose. Suspect(s) apparently placed the device sometime Saturday night. Due to indications at the scene, the water supply had been on for quite some time, as there was damage throughout the business.

Members from the Gainesville Fire and Rescue Hazardous Materials Team tested the liquid in the device as well as some of the chemical that was left at the scene. Preliminary tests indicated that the substance was corrosive in nature. The device will be processed for forensic evidence locally. Samples taken of the liquid will be processed by the Florida Department of Environmental Protection.

Placing such a device is a first degree felony, punishable by up to thirty years in prison.

Anyone with information regarding this case is asked to contact the Alachua County Sheriff's Office at 955-1818, or remain anonymous by calling Crime Stoppers at 372-STOP.
