Release #: 2008-186

Inmate labor saves more than \$3,600 in November

In November, inmate work squads from the Alachua County Jail worked on a variety of projects that saved county taxpayers more than \$3,600. Last month, the squads:

- Cut and removed brush at sites for the Gainesville Housing Authority.
- Cut trees and brush and removed debris at the Gainesville Regional Airport.
- Removed brush from the firing ranges at Santa Fe College Institute for Public Safety.

In November, the squads performed 276 hours of labor for a savings of \$3,612.84. From January through October, the squads performed 5,762 hours of work for a savings of \$75,424.58, according to the Florida Agency for Workforce Innovation (AWI). That calculates to a 2008 savings of \$79,037.42. From October through December 2007, a total of 677.5 hours of inmate labor were reported for a savings of \$8,868.48. Since the squads were initiated in October 2007, they have created a total combined savings to taxpayers of \$87,905.90.

AWI determines the value of work by multiplying the hourly wage value of \$13.09 by the total number of hours worked. The hourly wage value is based on a base rate of pay. They do not include holiday pay, overtime pay and shift differential pay, vacation pay or any other benefits such as health insurance benefits, profit sharing, stock bonuses, tuition repayments, or meal payments. The base hourly wage is determined from the Florida Occupational Wages 2007 Edition prepared by AWI.
