### Inmate labor saves more than \$3,800 in May

In May, inmate work squads from the Alachua County Jail worked on a variety of projects that saved county taxpayers more than \$3,800. Last month, the squads:

- Removed trees and brush from field at Gainesville Regional Airport.
- Removed brush from fence line at Santa Fe College Institute for Public Safety.
- Removed tree limbs and brush from fence line at Tree Trail Apartments.
- Moved playground equipment, removed tree limbs, erected speed limit signs, helped replace culvert and spread asphalt on dirt road for City of Waldo.

In May, the squads performed 291 hours of labor for a savings of \$3,809.19. So far this year, the squads have performed 1,739 hours of labor for a savings of \$22,763.51.

Last year, the squads performed 6,378 hours of work for a savings of \$83,488.02, according to the Florida Agency for Workforce Innovation (AWI).

From October through December 2007, a total of 677.5 hours of inmate labor were reported for a savings of \$8,868.48. Since the squads were initiated in October 2007, they have created a total combined savings to taxpayers of \$115,120.01.

AWI determines the value of work by multiplying the hourly wage value of \$13.09 by the total number of hours worked. The hourly wage value is based on a base rate of pay. They do not include holiday pay, overtime pay and shift differential pay, vacation pay or any other benefits such as health insurance benefits, profit sharing, stock bonuses, tuition repayments, or meal payments. The base hourly wage is determined from the Florida Occupational Wages 2007 Edition prepared by AWI.
